ONE of the best Purgative and Liver Medicines now before the public, namely, Dr. Sanford's Invigorator, or Liver Remedy, that acts as a Cathartic, easier, milder and more effectual than any other medicine known.—

It is not only a Cathartic, but a Liver remedy, acting first on the Liver to eject its morbid matter, then on the atomach and oowels to carry off the matter, thus accomplishing two pur poses effectually without any of the painful feelings experienced in the operation of most Cathartics. It strengthens the system at the same time that it purges it and when taken daily in mederate dosen will strengthen and build up with unusual rapidity.

rapidity.

Dr. Sanford's Invigorator is compounded entirely from new articles of medicines, viz:

entirely from new articles of medicines, viz. Gums.

Some idea of the strength of these gums may be formed when it is known that one bottle of the Invigorator contains as much strength as one hundred doses of Calomei, without any of its deleterious effects.

Though possessing rare medicinal powers, these Gums have been but little known to physicians, and never used in their preparations until used in the form of the Invigoration, which met with such unprecedented success as to induce the proprietor to offer it as a family medicine tried and known in it effects. It has rarely over failed to cure Liver or complaints in their worst forms.

Indigation being caused by a deranged Hiver is cured when the Liver is excited to action.

Liver is cured when the liver is excited to action.

Jaundice is caused by an improper action of the Liver, and as a proof that the invigorator relieves this disease, let any one take the invigorator regularly one week, and their skin will begin to assume its original color.

Costiseness can be permanently cured by the invigorator. Take it in small doses on retiring, and it will assist nature in her operations. By gradually diminishing the dose the bowels are left in a healthy and active that the state, and work as regularly as clock work. A state, and work as regularly as clock work.
Sick Head ache is very soon relieved by taking a double dose of the Invigorator, which sorroets all acidity and sourness of the stom-

Hing after enting heartily. For a family med-

Ains, after eating heartily. For a family medicine generally, all who use it speak in the highest terms.

Dr. Sanford's Invigorator came to a, recommended as a cure for Liver Communities and all discuses arising from a Discused Liver. The testimonials of so many of our Physicians in its favor, induced us to try it. And now conviction is certain that it is one of the greatest blessings ever given to Dyspepties, for it made a complete cure before the first bottle was taken, and now we can eat anything edible without any trouble. It while before nothing but the lightest food would digest, and often that gave pain. Now h while before nothing but the lightest food would digest, and often that gave pain. Now what we want to say to all our readers is, if I Liver Complaint or Dyspecisia trouble you, do not fair to try this the greatest remely in the world.—State Fact.

There has never been tried in our family of a remedy which has met with such unboundaries such that we have been tried in our family coose sucdin the cure or diseases incident to children, as Dr. Sanford's Invigorator; nor its large for diseases of children that we

children as Dr. Sanford's Invigorator; nor is it alone for disease of children that we use it; for it acts as a Cathartic so mildly and gently, and seems to renovate the system so thoroughly that we think we are doing a service to all in advising them when they need medicine to try this remedy.—

There are cases that have come under our notice where great benefit has been received. els, where all other remedies failed to give reliaf. It has become so useful in our fami-

It was at this point Walker landed the Chinese Sugar-cane. If it be true that with 450 of his military followers on the 25th they have made this statatement, or that it croup are simple, and in most justances per-State. It was at this point Walker landed with 450 of his military tollowers on the 25th day of last month. The river is deep, but narrow and crooked, and is navigable for small steam vessels from its mouth to the small steam vessels from i Costa Rica, the most southern of the States of Central America; on the north by the tensive, as they certainly are the most cele-State of Honduras; east by the Caribbean brated sugar-refiners in this country—has Sea; and west by the Pacific Ocean. It has made from canes grown upon his own prem-

they have in their power to mitigate an immense amount of severe suffering by using the volatile oil of mustard. It is employed as a rubefacient, being first diluted in its own weight of alchohol at forty degrees. Some patients may object to its pungent odor, but that is temporary, while the remedy may prove a permanent cure. Make the application at least twice a day, and protect the part with soft flanuel. Were it not for detecting it by a pungent odor this oil would have become a secret for rheumatic pains years ago.

SALTING BEEF FOR SUMMER USE .- FOR one hundred pounds of beef, take sixteen quarts of fine Ashton sack salt-and four ounces saltpeter; cut the meat and pack it edge-wise, after rubbing the pieces all with salt; and after a layer is completed take an axe or mall and pound down solid. Then sprinked on a little saltpeter, and fill up all interstices with salt and so on till the cask is full. I years. It needs no soaking before boiling,

7th inst., submitted the correspondence for his possession relative to the arrest of Gon. Walker by Commodore Paulding, and ascompanied it with the following message, which we reprint from the Washington

In submitting to the Senate the papers for which they have called, I doesn it proper to make a few observations.
In capturing General Walker and his com-

mand, after they had landed on the soil of Nicaragua, Commodore Paulding has, in my opinion, committed a grave error. It is quite evident, however, from the communi-cations herewith transmitted, that this was done from pure and patriotic motives, and in
